

# Beneath Our Skin

V1

**E5 - E6**                      **E5 - E6**  
The sun is high, the wind it scorches  
**A6 - Amaj7**                      **A6 - Amaj7 - C#5**  
We run and hide, beneath the shade  
And though we try to be Your portraits  
These desert eyes dry out and fade  
**G#m7(no5)**                      **A6**                      **Amaj7**                      **C#5**                      **E**  
We want to feel Your Living Water deep beneath our skin

V2

Our throats are dry, our lips are cracking  
Our tongues get stuck inside our mouths  
Our widest rivers, they hold no water  
Just crack and crumble beneath the drought  
We want to feel Your Living Water deep beneath our skin

*CHORUS*

**E**  
'Cause You are the Fountain that ever will flow  
**A**  
You are the Water the quenches our souls  
**C#m7(no5)**  
Save us from walking this desert alone  
**A**  
We want to be Yours God, we want to be Yours  
You are the Fountain that ever will flow  
You are the Water the quenches our souls  
Pour out your Spirit and strengthen our bones  
We want to be Yours God, we want to be Yours
